Dennis Point & Little River, Nova Scotia

## COMPLETION DATE

November 2009

## VALUE OF CONTRACT

\$547,500

## OWNER

Public Works & Government Services  
Canada

## CONSULTANT

Public Works & Government  
Services Canada

## Project Description

### DESCRIPTION

Dredging of 5,500 cpm of Class B material in Dennis Point. Dredging of 4,000 cpm of a blended Class A and Class B material in Little River.

### EQUIPMENT

"Harold M" Spud Barge  
John Deere 450 Excavator  
"Jamie L." Workboat  
"Delta II" Workboat  
"S.11" Dump Scow  
"FDJV3" Dump Scow

### INSTALLATION METHOD

Dredge spoils were loaded into the dump scows with the John Deere 450 Excavator and transported to the unloading facility with the workboats. Dredge spoils were then unloaded by a subcontractor and transport to a land disposal site.
