Wilson Little
(905) 623 - 1722

CONSULTANT

Shoreline Engineering Ltd.
Mr. Jack Jones P.Eng.
(905) 372-0716

Project Description

EQUIPMENT

Construction of a underwater fish shoal using approx. 1400 t of armour stone.

EQUIPMENT

Derrick #1 with 500 hp tug Bagotville

CONSTRUCTION METHOD

Stone was loaded onto flat scow, towed to location, then offloaded and placed with crane. Side slopes of shoal had to be quite precise and careful placing techniques were used.
