

C-383

# Sydney Tar Ponds McNally / MB2 Joint Venture

SYDNEY, NOVA SCOTIA

Remediation of the Sydney Tar Ponds & Coke Ovens Sites,  
Element C07/C08 - Coke Ovens Water Treatment Plant and Groundwater Collection System

## COMPLETION DATE

Summer 2010

## VALUE OF CONTRACT

\$15,240,381.13

## OWNER

Sydney Tar Ponds Agency  
Mr. Claude Goora  
(902) 567-2804

## CONSULTANT

AECOM  
Mr. Ray Rice  
(902) 595-2012

## Project Description

The project includes the construction of a 2,200 square foot Water Treatment Plant and a 784m Groundwater Collection System which will convey contaminated groundwater to a pumping structure and into the Water Treatment Plant prior to being discharged back into the environment. To facilitate construction, a water management system has been designed to manage the headwaters of the existing brook and bypass the dry work zone. Additionally this system is required to collect, treat, and discharge any water entering the construction zone and exposed to potential contamination from the site. Contaminants excavated under this contract will be separated and transported to the Tar Ponds for inclusion in the Solidification and Stabilization element of the project.
